

European Quantum Technology Summer School

July 8th - 12th, 2024, Strasbourg

Are you ready to dive into the fascinating world of Quantum Technologies?
The European Quantum Technology Summer School, organized by QuantEdu-France, Quantum Delta-NL and EIN-Quantum and supported by the trilateral agreement between France, the Netherlands and Germany, welcomes you to Strasbourg from July 8th to 12th!

What will you discover?

Our comprehensive program covers:

- Sessions led by experts on quantum computing, communication, sensing and enabling technologies.
- Presentations from innovative start-ups and debates with participants.
- Personal development and networking opportunities!

How to stay connected?

Reach out to us by emailing to EQC@quantumdelta.nl to stay updated or visit our website by scanning the QR-code!

Who can participate?

We invite 50 students to our program. Join this experience if you are a ...

- Student: who is passionate about quantum technology and aims to pursue a Master's degree in this field
- Start-up: working on innovation in the quantum realm and willing to share this work with students!

Fees (registration/hotel/travel) are covered!
