SISF Program (Soongsil International Summer Friends)

The SISF program pairs international students with Soongsil University students for the purpose of exchanging culture in a unique fulfilling way. SISF supports international students adjustment to campus life and transition into Korea. Throughout the program, both international students and SISF members engage in intercultural dialogue, learn about a culture outside of their own and, hopefully, create life-long friendships that extend beyond national borders.

Language Exchange Program

The Language Exchange Program is designed to connect individuals who wish to practice and improve their foreign language speaking skills. LEP participants meet new friends, benefit from each other's knowledge, expand their skills and are better able to engage the world around them.
